

Spreader Band

Accessory

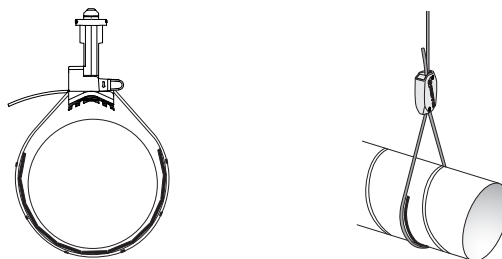

A plastic band for attachment to Grippler No. 2 and No. 3 cable, to more evenly distribute the load of piping or similar services.

FEATURES / BENEFITS

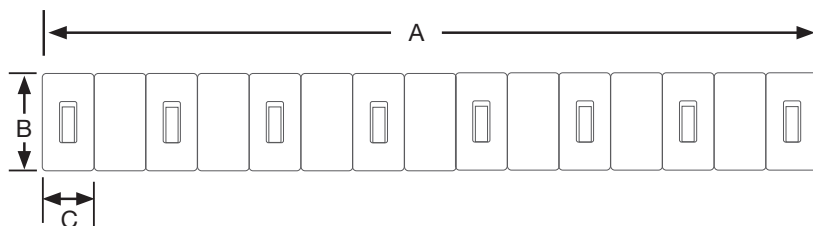

- Distributes the weight of the suspended service more evenly
- Snap to length as required: 'live' hinges allow for flexibility of use
- Easily attaches to cable with integrated clips
- Ideal for use with insulated pipework, fabric duct and bundled cable
- Supplied in 12" (300mm) lengths. Multiple bands can be used together to accommodate larger diameter pipe.
- Helps to prevent galvanic corrosion on pipework hangers

SUBMITTAL INFORMATION

Material:

Polypropylene

Recommended Fixing:

Suitability of fixings to substrate is the responsibility of the contractor. Consideration should be taken regarding the strength/robustness of the substrate.

IMPORTANT INFORMATION

Construction materials and conditions vary on different sites. If it is suspected that the base material has insufficient strength to achieve a suitable fixing, contact Grippler Canada Inc. The responsibility for judgement of base material strength lies with the installer, and not with Grippler Canada Inc.

Whilst Grippler Canada Inc. can give general guidance and advice, the nature of Grippler products means that the ultimate responsibility for selecting the correct product for a particular application must lie with the customer.
