..... PROJECT DETAILS

The Mall of America, located in Bloomington, MN, is the largest shopping mall in the U.S. It contains over 520 stores, over 50 restaurants, an amusement park with 25 rides, a 1.2 million gallon Aquarium, and gets 42 million visitors annually. The expansion project currently underway consists of a 15-floor JW Marriott hotel, a 10-story Office Tower, a new Grand Atrium entrance to the mall, and an additional 200,000 square feet of retail space. Grippple products are being used to suspend spiral ductwork, rectangular ductwork, and conduit racks, and include Standard Grippple Hangers, Trapeze, Duct Trapeze, Metal Deck Inserts, Spider Inserts, and Swivel Toggle Hangers.
