Wall Bracket

Accessory

Gripple Wall Brackets are designed for use in conjunction with Universal Brackets for the easy installation of wall mounted pipe and electrical services.

FEATURES / BENEFITS

- Universal Brackets are quickly fixed to Wall Brackets using supplied fixings
- Designed to support piping and/or electrical services when installed cantilevered and parallel to the wall
- Suitable for use with Gripple Universal Brackets up to 440 mm long. Longer brackets require secondary suspension from deck at unsupported end e.g. UniGrip – QT or threaded rod
- Wall Brackets are supplied with Universal Brackets and Quick Twist-Universal Clamps featuring quarter turn attachment
- Allows for full use of both faces of the bracket for multiple services
- Can be bolted directly to soffit or wall

INSTALLATION

1. Fixings to wall supplied separately

RECOMMENDED FIXINGS

Suitability of fixings to substrate is the responsibility of the contractor. Consideration should be taken regarding the strength/robustness of the substrate.

- M8 - M12 Concrete Expansion Anchor and M8-M12 Fixings
- Drop-In Anchor

For more information on fixings methods contact the technical team or visit [www.gripple.com](http://www.gripple.com)
